

'Reimagining Experience'

Powered by Flik Explorer

- Immersive 3D Walkthroughs
- Next-Gen Experience Centres
- Live Customization & Lighting
- Faster Closures & Higher Buyer Confidence

Challenges in Traditional Real Estate Sales

- Buyers cannot visualize under-construction homes
- Static brochures lack emotional impact
- Sample flats require high investment
- Heavy dependence on imagination & verbal explanation
- Longer decision cycles

Introducing Flik Explorer

- A next-generation real estate sales visualization platform
- Replace static brochures with immersive digital experiences
- Enable confident buying before construction
- Built for premium developers like Ajmera Cityscapes

Photorealistic 3D Walkthroughs

- Studio-grade realism with true-to-life materials
- Accurate layouts, proportions, and finishes
- Creates instant emotional connection
- Builds trust before site readiness

Real-Time 3D Walkthroughs
Explore Every Corner Before Construction

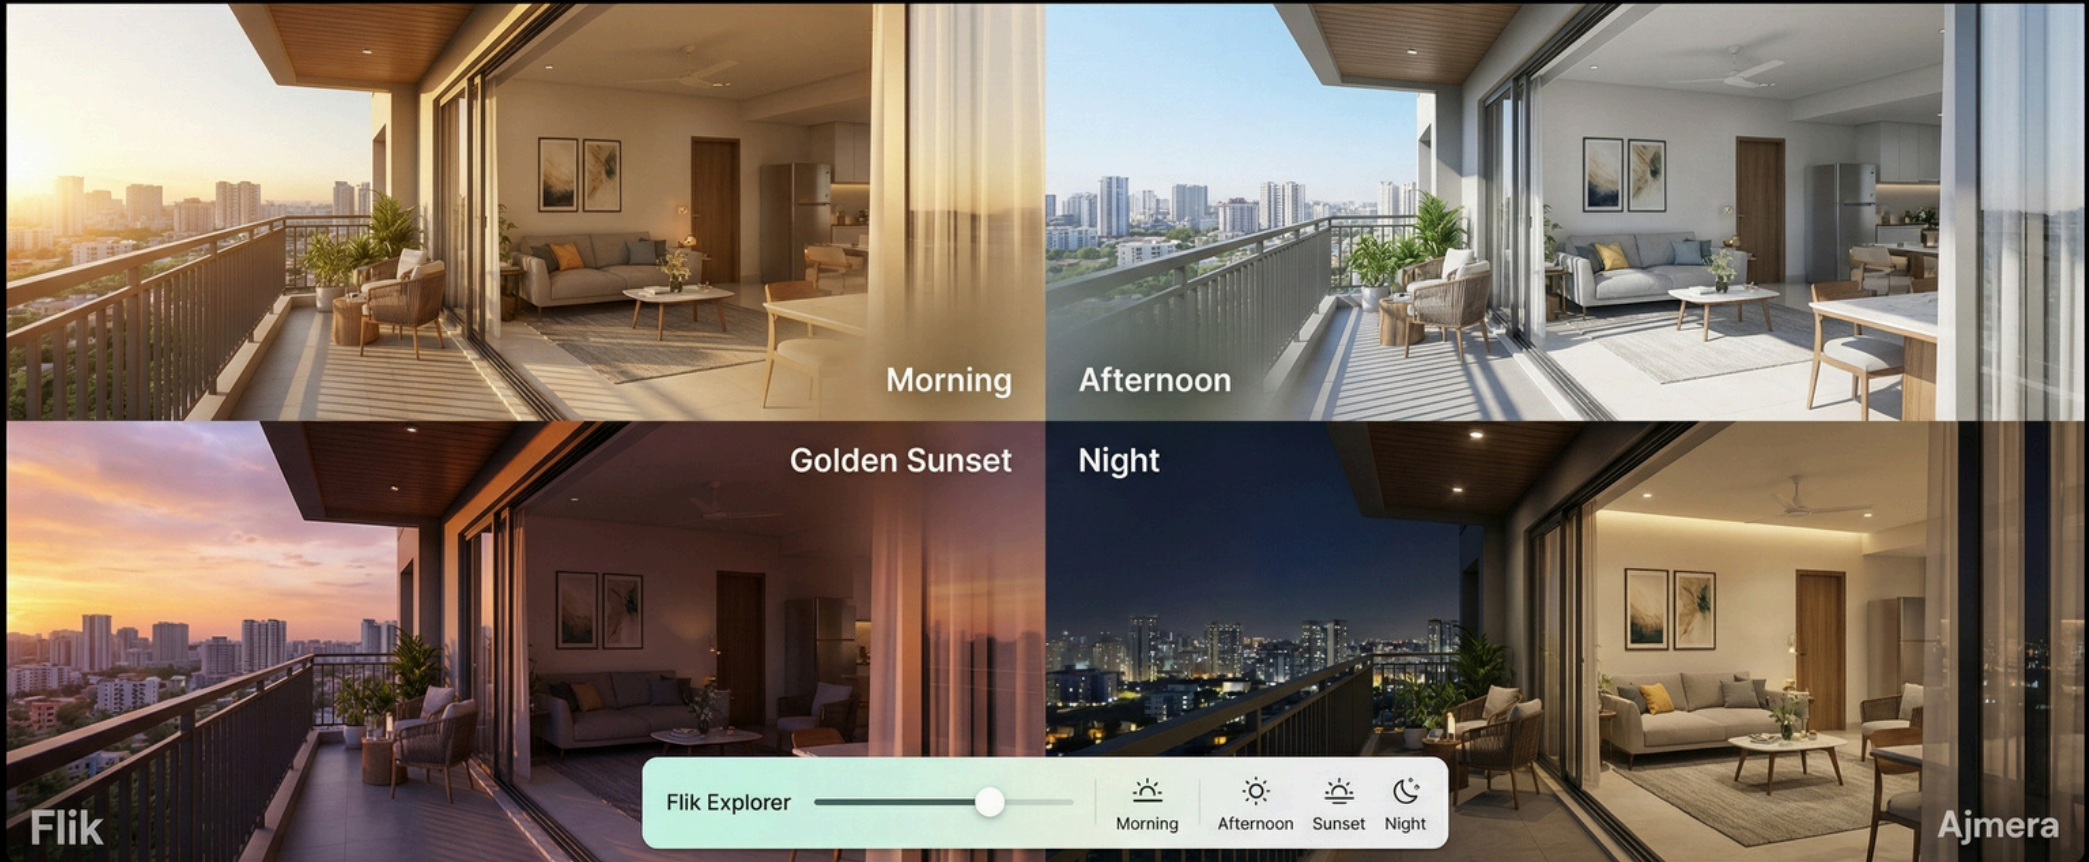

Real-Time Lighting & Time Simulation

- Instantly visualize homes at any time of day
- Realistic sunlight, reflections, and shadows
- Balcony light & window orientation clarity
- Helps buyers confidently choose the right unit

Real-Time Lighting & Time Simulation

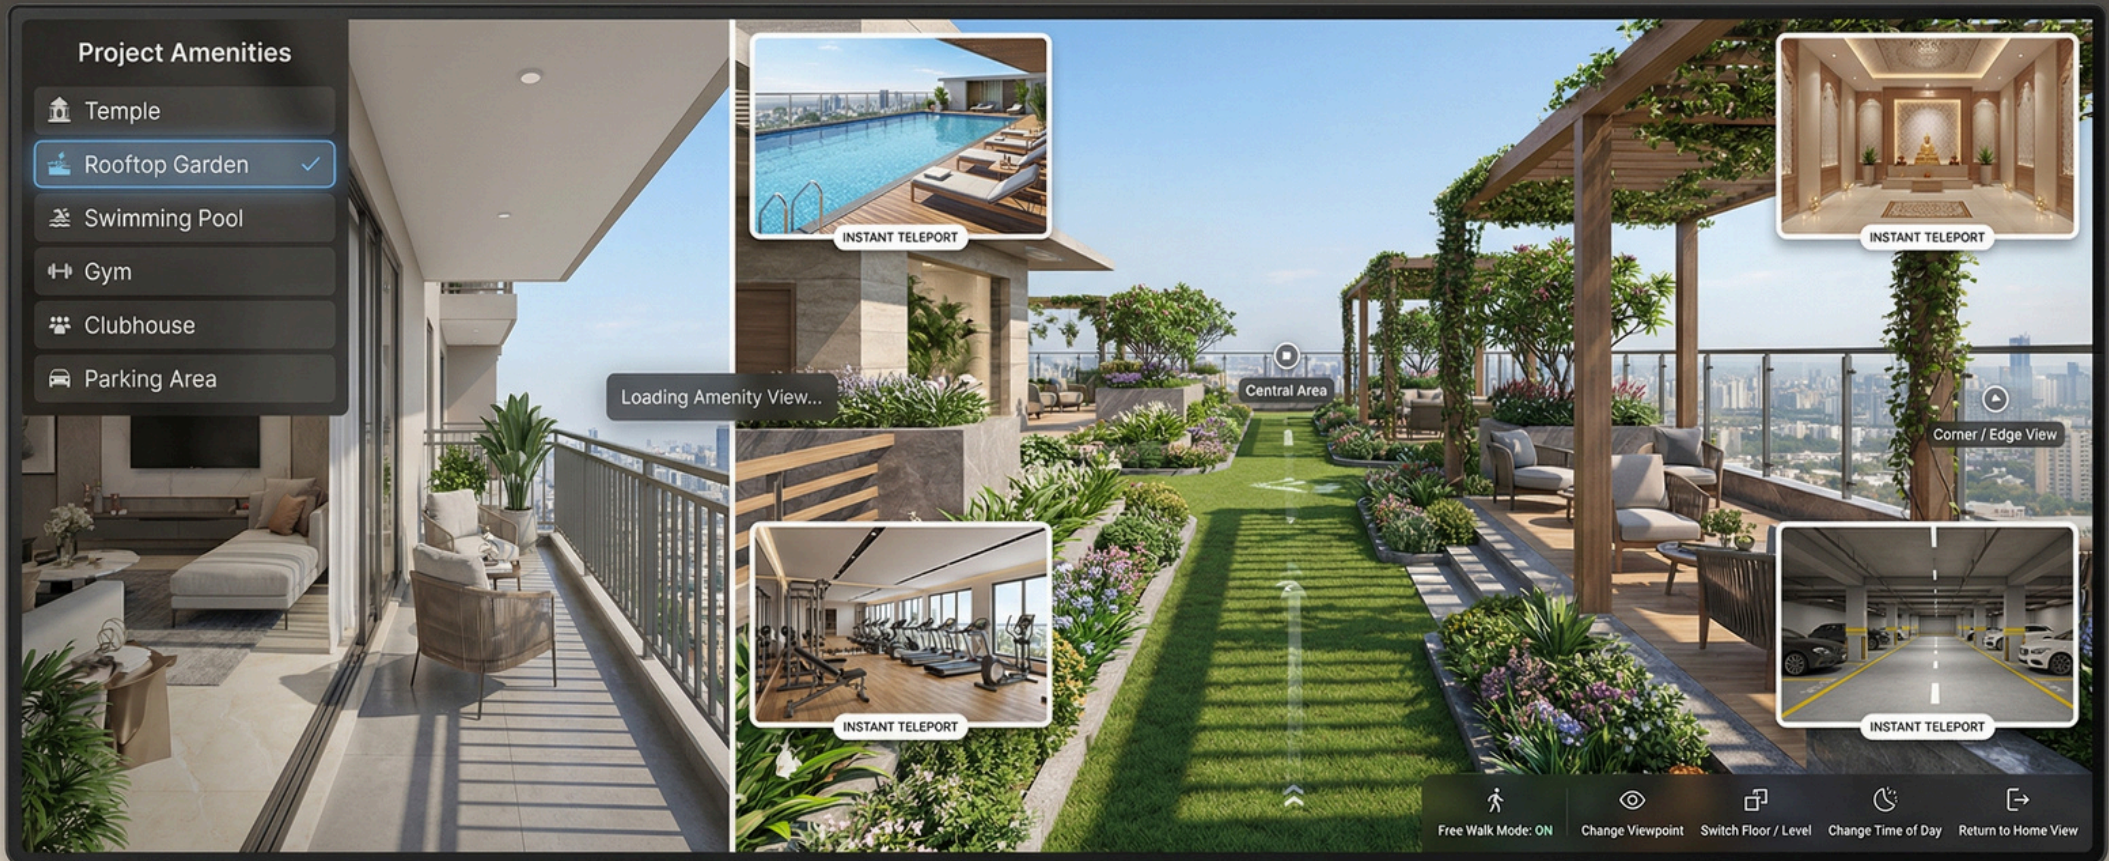

- Instantly visualize homes at any time of day
